The image features four red, curved, ring-like objects arranged vertically against a black background. Each object has a central hole and two smaller holes on its outer surface. The objects appear to be made of a textured material, possibly wood or plastic, and show signs of wear and discoloration. The top object is partially cut off at the top edge. The second object from the top is the most complete, showing its full shape. The third and fourth objects are also partially cut off at the bottom edge.

The background of the image is a repeating pattern of yellow climbing holds. Each hold is a semi-circular shape with a central circular hole and two smaller circular holes on either side, resembling a face with eyes. The holds are arranged in a grid-like pattern, with some variations in their orientation and position. The text "LOVE HANDLE FOOTHOLDS" is centered in the upper half of the image.
